## Compliance Education Bulletin

Bulletin CE2017-13

September 15, 2017

The Oregon Liquor Control Commission is providing the following information to: existing and prospective recreational marijuana licensees and all employees working in the industry who require a worker permit.

The bulletin is part of OLCC's compliance education. It is important that you read it, and understand it. If you don't understand it please contact the OLCC for help.

Failure to understand and follow the information contained in this bulletin *could result in an OLCC rules compliance violation affecting your ability to work or operate your business.*

Bulletin CE2017-13 covers the following issues:

- Marijuana Product Transfers

### Marijuana Product Transfers

#### **No licensee may receive marijuana items from outside the licensed OLCC system**

- All marijuana items must be tracked and transferred within [Metrc](#).
- The only "unsourced" items that can be entered into Metrc are start-up inventory that has been approved by the Oregon Liquor Control Commission, or producers' immature plants and seeds during their first 90 days of licensure.
- All license types can transfer waste items to each other; waste items must be tracked as waste in CTS and may never become a "usable" product.
- All license types can make returns (the original product purchased) to the license they directly bought the product from.
- A joint on its own is considered usable marijuana.
- A joint with anything added, including kief, is considered a marijuana product.

**Each license type has specific privileges for the transfer of marijuana and marijuana products**
